

CR05-4 Erie

8.21.08

Honorable Judge McLaughlin,

My name is Michelle Welsh. I am writing in reference to case no: CR05-04-0001. I'm currently serving a 31 month sentence at Alderson Federal Prison Camp in West Virginia.

I'm a single mother of 3 children. The reason why I'm writing you is because of some family problems with my grandmother and my children's well being.

My children have been attending different recreational programs with the House of Healing for quite some time now. In

September, I'll be away from my children for a year. I've been having problems with communicating with my children, so I decided to write Sister Stephany, the director of the House of Healing the program I was once unsuccessful in it she could help me communicate with my children. I

was blessed with a positive response. I truly believe Sister Stephany will welcome me with another chance to successfully complete the program. While I been in prison I received my G.E.D and have taken a few pre-release classes.

What I'm asking for is if I can be resentence or if I could finish my sentence at the House of Healing, so I can reunite with my children.

I want to Thank you for your time and your consideration to the matter of this letter will be greatly appreciated

Sincerely,  
Michele Welsh
